

Complete Concrete Solutions

# Megacrete<sup>®</sup>

Breaking the height barrier

## Challenges

Shooting prices of floor spaces in recent years.

## Solution

Megacrete® M60, M70, M80, M90....  
comes to the rescue with increased carpet area.

### Key Advantages:

- Jumbo Strength and Dense Concrete.
- Supports high-rise constructions.
- Increased floor space availability.
- High early strength allowing early stripping times and speedy construction.

### Applications:

- RCC columns and beams in high rise buildings; columns, beams and girders for mega-urban infrastructure projects.
- Precast structural elements.
- Marine structures.
