

Enhancing Properties of slab through FRCcrete®

Volume supplied	110 cum
Area of application	Slab
Solution	FRCcrete®
Location	Ahmedabad
Duration	1 month

Project Description

A slab had to be casted on the 7th floor of the building in Ahmedabad.

Challenges

One of the major challenge faced in this project was that the distance of site and plant was 15km. The client was very quality concise. Hence RMC CSG team recommended the use of FRCcrete®

Solution

RMC CSG team visited the site and recommended **FRCcrete®** as a solution. FRCcrete® helps in delivering higher durability and superior concrete performance in Aggressive Condition. Additions of Fiber reduces permeability with denser concrete and mitigates plastic shrinkage cracking. Thus helping in withstanding heavy loads too.
